

About APOC

APOC Aviation – leasing, trading, aircraft part-out and component support specialists, driven by innovation and a passion for aviation.

Our mission is to keep aircraft fully operational by sourcing and delivering used aviation products of the highest quality. Our unique marriage of teamwork and technology is what makes us different.

We offer a wide range of services, including landing gear management, component support & management, engine management & aircraft sourcing for tear-down.

Locations

We are by definition a truly global company. With team members located across our international offices, we are ideally positioned to help our clients stay airborne regardless of their location.

1. The Netherlands, HQ & Central Warehouse
2. Lithuania, Sales Office
3. United Kingdom, Sales Office
4. Romania, Sales Office
5. Singapore, Warehouse
6. Miami, Sales Office & Warehouse

component support**

Parts Supply

We possess a considerable stock of quality parts for the aviation industry, which we sell in both AR/SV conditions. Every component is bar-coded and tracked electronically, while our warehousing system is equipped with sophisticated climate control to ensure constant and accurate temperature parameters are met and maintained.

APOC Aviation inventory changes constantly and is updated every 5 seconds – meaning our sales team can service your order quickly and efficiently.

- ▶ 24/7 AOG Support
- ▶ Component Sales, Exchange and Lease (APU)
- ▶ Flight Hour Programs (PBH)
- ▶ Global Stock & Logistics Services
- ▶ Pool Access Solutions (own developed system ALICANTO)
- ▶ Frequent Buyer Program

Landing Gears

Our specialist landing gear division services a growing number of customers across leading airlines and MROs worldwide. We have built a strong portfolio of LDGs underpinned by independent and flexible repair management services. We work alongside third-party experts to tear down LDGs in a parts-for-sale process, or to support our customers' ongoing overhaul projects.

- ▶ Short- and Long-Term Lease
- ▶ Exchange Programs
- ▶ Teardown
- ▶ Asset Trading
- ▶ Repair Management
- ▶ Sale Lease Back
- ▶ Landing Gear Part-out
- ▶ Aftermarket Parts Supply

Engines

APOC Aviation's engines division is focused on CFM56-3/5A/5B/7B and V2500-A5 engines.

We foster close relationships with airlines, investors, and repair shops; manage engine sales; trade engines – with leases attached or as naked assets; and evaluate engine stock for trading, leasing, or teardown.

- ▶ “Green Time” lease (6-36 months)
- ▶ Trading with leases attached or as naked assets
- ▶ Exchange Programmes
- ▶ Teardown to release parts
- ▶ Spare Parts, LLPs, QECs support
- ▶ Repair Management
- ▶ Full certification of all components
